

## AIRE VALLEY SAFE RIDING AND IMPROVED RIDING SKILLS

*An informal training session*

At the October meeting I asked for a show of hands to gauge the interest in a 'classroom' session I was considering developing for the benefit of members during the winter months. The show of hands was fairly conclusive and therefore I have put together a Powerpoint presentation covering the following:

- Pre-ride checks
- Roadcraft – the police system of riding
- Hazards
- Handling characteristics
- Information
- Riding plans
- Overtaking
- Braking
- Limit point
- Cornering and bend work
- Dual Carriageways and Motorways
- Slow riding

The session will be informal, friendly and is aimed at members who: are new to the chapter, have recently passed their bike test, have recently returned to biking after a long lay off, fancy a refresher.

The session will be held in the first floor meeting room at Leeds Harley Davidson Dealership at **2:30pm on Saturday 27 November 2010.**

Complimentary light refreshments will be provided and if the weather permits, there will be the opportunity to practice some slow riding on a dealership bike in the car park.

Places may be limited so if you would like to attend, please contact me by email at [hrc@avhog.co.uk](mailto:hrc@avhog.co.uk) or send me a text on 07769826082

Tony Burns

Head Road Captain and Safety Officer
